Re: NEW-LP, San Francisco, CA
Facility ID No. 197317
Noisebridge
File No. BNPL-20131114BOM

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 22.7 kilometers from the licensed facility for KALX (BLED-19820712AL) on Channel 214A in Berkeley, CA. The required spacing pursuant to § 73.807 is 56 kilometers. Also, the site proposed is located 26.5 kilometers from the licensed facility for KCSM (BLED-20100921ACN) on Channel 216B1 in San Mateo, CA. The required spacing pursuant to § 73.807 is 74 kilometers. The application fails to address these defects.

Accordingly, in light of the above, application BNPL-20131114BOM is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283 and 73.870(c).¹

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau
